 Excerpta e Scripturis quædam in usum tironum, containing the 1st Chap. of St. John's Gospel and the Cathechism rendered closely into English, with Latin and French translations, for the use of beginners in the GREEK language, 8vo. (sells at 3s 6d) *new*, 1s 6d Lond. 1800

This elegant little work will not only be found to familiarize the student with the character, but introduce him in some measure, to the construction of the Greek language, and is altogether a very useful companion to him.

The labors of Rahnkenias have sufficiently excited the attention of both  
domestic and foreign literati to secure respect and popularity to all  
his productions. This interesting and able compilation by Mr. Kidd,  
will be found every way worthy the author and the editor, and  
very necessary to complete the Works of Ruhnkenius.
